DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17, 22-27 and 55-58 are rejected under 35 U.S.C. 102(b) as being anticipated by Dotta (4,485,713). Dotta discloses first ram 1; second ram 2; first rotating member 9; second rotating member 109; third rotating member 9; fourth rotating member 109; off-center position located at 7 and 8 in figures 1 and 2; rotational axes juxtaposed elements 10 and 9, and juxtaposed elements 110 and 109; first drive member 11'; second drive member 11; first cutting tool 3; second cutting tool 4; cut-off blade and ram set 3, 4; first and third rotating members are in a direct drive configuration as seen in figure 3; guide member 5, 105; rotating bearing located at 7, 8, 107, 108; stub shaft 7; motors are inherently connected to the first and second drive members as indicated at the shafts 11 and 11' that are driving the first and second drive members in figure 3; spur gears in column 2, lines 8-12; eccentric paths in column 2, lines 17-19; first drive member is engaged to the first rotating member and the second drive member is engaged to the second rotating member in column 2, lines 13-15.

Response to Arguments

3. Applicant's arguments filed 06/22/06 have been fully considered but they are not persuasive. Applicant asserts that elements 3 and 4 are not a cut-off blade and ram set.

However, elements 3 and 4 are capable of shearing off the ends of thin strips of material due to

Art Unit: 3724

the widths of elements 3 and 4. It is to be noted that the terms "blade" and "ram" are broad and can be used to describe a punch and a die.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
